

# SASHA'S BABETTE'S

## BRIDESMAID SIZE AGREEMENT FORM

Babette's will provide the merchandise listed on the invoice in the size and color you have requested per this form. This is a standard size and is not custom made to your measurements or height. It is common to expect that alterations will be necessary to properly fit your gown. We have an on-site alterations department that offers these services for an additional fee. When choosing the appropriate size to special order, you must consider the bust, waist, and hip measurements. It is important you consider your largest measurement when choosing a size from the designer's size chart. You acknowledge that you have reviewed the size chart and selected the proper size. Babette's will not be responsible for any variation in original measurements due to weight loss or gain. Special charges apply to women's sizes 18 and above and extra length is recommended for anyone 5'9" or taller. The dye process may change without our knowledge or control. All special orders are final sales. Cancellation of any special order is subject to forfeiture of any payment and placed in inventory. The entire wedding party must be paid in full before any orders are placed.
